Two very well known 'real' Belgian cyber security experts (in their own field) **Inti De Ceukelaire** and me (**Eddy Willems**) : the old(er) generation next to the young(er) generation at **Cybersec Europe 2025** in their typical 'costume'. 🤖

It's always good to see half of your network running around in one big hall during 2 days. My new upcoming translated version of my book 'The Virus' was shown very selectively to the public at the booth of **LSEC - Leaders in Security** as part of the **CYSSME** project. Thanks goes to **Ulrich Seideslachts** in supporting me with this. The press release for the worldwide release is coming soon. More about 'The Virus' already here: <https://lnkd.in/evEwAIUP>

The 2 days were highlighted by being in a jury together with 🇳🇱 **Marc Vael** 🇧🇪 **Kurt Callewaert** **Jan Guidentops** **Guy Kindermans** **Henk Dujardin** and choosing the Security Project & Program (Securing the Paris 2024 Olympic and Paralympic Games by **CFDT Atos-Eviden**) and the Security Innovation of the year (Zen by **Aikido Security**). You will see the other topics like personality of the year, etc appearing soon at **Computable Belgium** and **Computable .nl**.

The inside mini conference was perfectly hosted again by **Wim De Vilder** **William Visterin** and **Sander Hulsman**.

And as a tradition also Prince Laurent was also present (<https://lnkd.in/ezhU5Gz>) and for my foreign friends around the world... yes, he is a 'real' prince. (see the link)

Congrats goes to the organizers (including **Kirsten Van Pee** **Kristel De Swert**) of **Cybersec Europe 2025**. You did again a brilliant job. CU all next year or even sooner in the Netherlands.

Visiting the Atomium, but make it cybersecurity!
Yesterday I took a detour from my trip to the Atomium, and landed at the **Cybersec Europe** conference 🤖

Here are some highlights:

- 👉 Starting off with **Women4Cyber Foundation** and **Alexandra Jorissen's #IamRemarkable** workshop gave me the positive energy to start an exciting day
- 👉 Hearing **Despina Spanou's** excellent overview of the EU's plans for **#CyberPolicy**, from implementing the Cyber Resilience Act to reviewing the Cybersecurity Act
- 👉 Listening to other engaging presentations on **#Cybersecurity** compliance, cybersecurity's role in the **#DigitalTransformation**, hacking and post-quantum encryption
- 👉 Exploring the expo stands while having sideline discussions with women in cybersecurity

First time at **Cybersec Europe**
Made connections. Attended seminars. Left inspired.
Learn. Build. Connect.

Yesterday was everything I hoped for and more. I had real conversations with incredible people, took in powerful insights from expert speakers, and left more driven than ever to grow in cybersecurity.

I'm currently building a homelab and working on a project, a cybersecurity solution designed to protect families and non-technical users.

If we connected yesterday: thank you!
If we didn't: let's fix that.

This journey is just getting started.

Wat een editie was **Cybersec Europe 2025** ... 🙌

Twee volle dagen gevuld met:

- 👉 het ontmoeten van nieuwe mensen
- 👉 het leren kennen van boeiende bedrijven
- 👉 het luisteren naar interessante sprekers
- 👉 het weerzien van onze klanten en partners
- 👉 veel wafels, hamburgers en vooral koffie ☕☕☕
- 👉 vooral een fantastisch team dat een sterke editie heeft neergezet 🙌

Een dikke merci aan **Edwin Karlas**, **Michael Verleysen**, **Joris Knuts**, **Khalid Bouseksou**, **Marcel Kuiken**, **Valerie Geerinck**, **Erik Bosmans** **Peter Leeman - artistpeterleeman** voor de fantastische twee dagen.

Cybersec Europe trade show team!
But this time... in the Irish pub we found right across from our hotel 🍀🍀

Honestly, our approach as a team is the same as the one behind our product: just make it fun, and the rest will follow! 🤖

- No boring e-learning, but a cinematic game 🎮
- No targets or KPIs, just having a good time together 🍀🍀🍀
- When that happens, everything else falls into place 🙌

With an unbelievable 1,000 leads in just 2 days 🙌, 100 beers in one night 🍀, and 10 karaoke songs 🎤, we're wrapping up the trade show feeling proud and satisfied 🙌

It might take us a few days to reply to all the inquiries — we've sadly reached that age where hangovers are inevitable 🍀🍀🍀
